

Deep Sea Adventure

blog.catfootwear.com/catfortchallenge

Use blue bed sheets to transform a sandbox or patio into an under-sea adventure realm! Garden trellises or fence posts help support the sheets, and weave extra colorful fabric and ribbons through the trellises or fence openings to mimic rolling ocean waves. Bring along seashells, water balloons and anything else you might want to embellish your underwater palace!

Note: You can also use the corner of a patio with railings to support the sheet. *For grown-ups: Skip the water balloons and bring calming music, snacks or libations for a zen twist on your next date night or Zoom call!*

GARDEN/PATIO BASE

1. Start by hanging a clothesline from one end of the space to another. Anchor on a curtain rod, door hinge or something sturdy.
2. Drape a blanket or sheet across the top and lay it over chairs, fencepost or other furniture to widen - and keep from caving in.
1. Fill in "walls" to add another dimension by weaving extra materials through the gaps in the fence, garden trellis, or whatever's available.

Deep Sea Adventure

PARTS NEEDED

✓	Scuba Diving Credentials		Sand, if you're adventurous (and unafraid of potential spills)
	Blue, Green or Purple Bedsheets		Portable Fan
	Colorful Fabric (Scarves, Ribbons etc.)		Ocean Sounds Playlist
	1 Clothesline		
	Seashells		
	Pillows and Blankets		
	Potted Plants or Artificial Tree		

DIRECTIONS

1. Build the **GARDEN/PATIO BASE**.
2. Weave extra colorful ribbons or fabric through the gaps in the trellis, patio siding, or fence. Add a fan to mimic the rolling ocean waves.
3. Arrange pillows, blankets, potted plants and seashells around the space to create a comfy, under-sea setting.
4. Get cozy and creative with some ambient beach or ocean sounds music, and whatever activities you want to bring "to the deep sea!"
5. Share your creation on social using **#CatFortChallenge**.
